North Fork College-Goers by College Selectivity, 2017-2019

[n = 636]

Disclaimer:

- The above data were compiled by me in 2021 from various public and school sources, the latter with the cooperation of the guidance departments of the three North Fork high schools. They have no official standing and simply represent my best assessment of the composite picture, not necessarily that of any of my sources. They would benefit from the addition of more recent data, which could confirm or modify the picture conveyed here.
