REFLECTOR

E

*Mr. Robert Krudop*

## *A Man Of Many Roles*

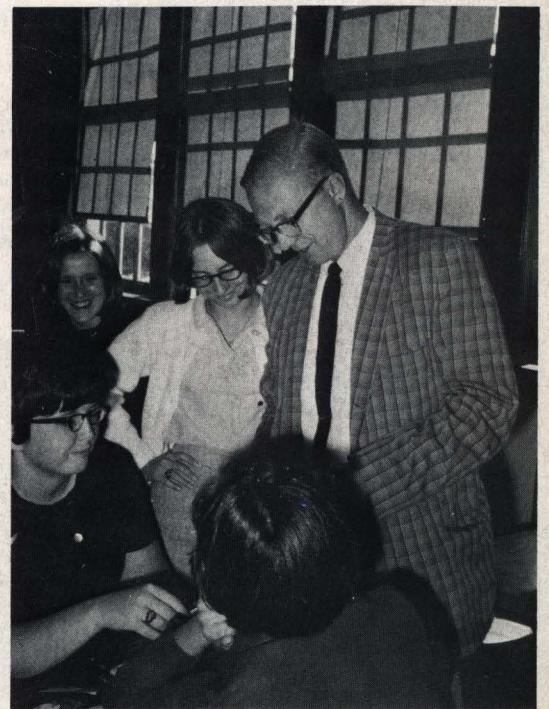

"... a friend to all of us".

Many things go into the making of a community and a school. After they are first established with purpose in mind, they must then find resources of culture, education, recreation and economic growth to develop themselves into thriving and cosmopolitan entities. Mattituck and Mattituck High School have found those resources needed for growth in its faculty. Culture, worldly experience, unlimited talent and new ideas have been drawn from its 39 members to lend an air of friendly sophistication and metropolitanism to life in Mattituck. The senior class of 1968 feels it a privilege to dedicate this REFLECTOR to an outstanding member of this faculty, Mr. Robert Krudop. We dedicate this book to him because of his notable accomplishments above and beyond the teacher's call of duty. One could not begin to count the hours he has devoted to this cause. His unselfish spirit in the interest of our school is demonstrated by the manner in which he performs his numerous tasks. Mr. Krudop is a fine person of strong and tested character ... he gives much and asks nothing in return.

"... an exciting teacher, alive, alert, dynamic".

"an innovator of new techniques"

"... an advisor to the seniors"

*Dedication '68*

*Supervising Principal William H. Liebeknecht*

*TO THE CLASS OF 1968*

Your accomplishments at Mattituck High School will mark this class as one of the most outstanding ever to graduate. Your enthusiasm for class projects; your cooperation with each other, with the staff, and with the administration; and your determination to do your very best in everything you attempted will long be remembered. This standard of quality will stand you well in this ever more competitive world.

The knowledge you have thus far acquired has given you a firm foundation upon which to build a richer and fuller life.

In retrospect you will look with appreciation upon the preparation which Mattituck High School has afforded you. By the same token, we of the staff appreciate the opportunity we have had to work with the high calibre of student in the CLASS OF 1968. With you go our sincere best wishes for a challenging future filled with contentment and success.

Board of Education

From the Board of Education emerge the plans for the operation of the Mattituck school system. The entire year is carefully plotted to provide the maximum opportunities for learning and development.

In the midst of this program is Mattituck High and its students. The Board of Education carefully directs all phases of school activity.

It labors long hours to supply students with the benefits of an enriched and varied education which includes courses in college, vocational, commercial, and general programs.

Capable administrators, certified teachers, modern equipment, and up-to-date textbooks are the basis for continual growth and improvement in Mattituck's educational system.

## *Administrative Assistants*

Of the three elements which make up a school . . . faculty, students, administration . . . the administration perhaps deals with the most complicated and perplexing of problems. Administration of a school means coping with a multitude of details. The handling of these details requires capable and talented administrative staff. Our Assistant Principal Roland Sherwood and our Guidance Director Vernon Strub not only perform their appointed tasks, but become a vital part of the school, assisting the teachers, becoming involved in the activities and efforts of the student body, and befriending and advising individual students with whom they come in contact. In fact it sometimes seems that this school might come to an abrupt and chaotic halt if it were not for these men who know where things are, who's supposed to be where and when, and what's going on and why.

ROLAND SHERWOOD, Assistant Principal

VERNON STRUB, Guidance Director

Aiding our administrators with the "what's going on and why" is a staff of capable and efficient secretaries. They pay the bills, they make the payroll, they type the rosters, they carry on the correspondence . . . in a thousand ways they make the job of our Principal, Assistant Principal and Guidance Director, bearable.

# The Junior-Senior Play

## "TIME OUT FOR GINGER"

Our Junior-Senior play was a highly enjoyable comedy. The story turns on the adventures of a tomboy who finds herself ditched by her boy friend for conduct unbecoming a girl. Ginger is determined to go out for football ... and she makes it. Her discovery that she would rather be a girl, after all, leads to some tender moments at the end. The story is hilarious, but it is also warm and human. We worked hard, but were sorry when it was over, and we agreed we had thoroughly enjoyed every moment of it.

*Our Exchange Student*  
*Alvaro Zamorano*

Shortly after the beginning of the second quarter, November 30, to be exact, Alvaro Zamorano arrived at Kennedy Airport and was driven out to meet his new family, the Boutchers, in Laurel. Alvaro had already finished HS in Colombia and eagerly awaited a sort of "post graduate" session in Mattituck High.

Alvaro lived in our town as MHS's foreign exchange student for 1967-68. His smiling face and refreshing laughter soon became a welcome fixture in the halls, and, being an honorary member of all school organizations, he soon gained many new friends.

Our exchange student came to us from Cali, Colombia, where his father owns a cattle ranch some 50 kilometers from his home town. During the winter months Alvaro's family lives in Cali but in the summer they move out to the cool breezes on the ranch.

We at MHS extend our thanks to the International Fellowship and to the Student Council, who gave tremendous support to the project, for bringing Alvaro to us this year. We feel as if the bond of everlasting friendship has been strengthened between Colombia and the United States, Alvaro, through our having known you.

Fred Boutcher and Felipe DeZubira, a former Colombian, help Alvaro with his schedule.

FACULTY

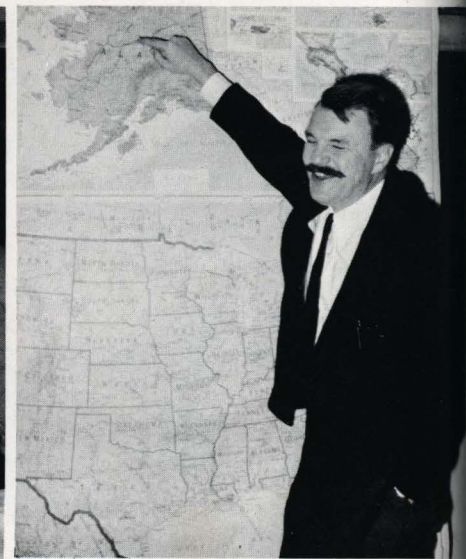

# Facts, Ideas Lead To Human Understanding

ED HANUS

MR. ED CLINGEN

MR. GEORGE KREILING

Mr. Hanus tells his class of some of the wonders of New York State.

Understanding social studies is more than knowing the dates of the reign of Henry VIII or memorizing the battles of the American Civil War. Here at Mattituck, instead of recording the facts only, our teachers try to interest students in the ideas which have shaped the civilization of mankind. Pupils are taught to question causes and results, to study cultures and ideals, and apply the lessons of the past to the problems of today. In this way only, can we break down the bridges between the peoples of the world.

Preparation of pictures and slides makes for a quiet session in the library.

Mr. Kreiling's American Heritage books always excite interest in United States History.

Antigone ... The corpse of Eurydice is laid before Creon.

Two dear friends share birthday cake on the "Old Man's" 50th.

Mrs. Connors and Mrs. Tuthill have made our library one of the best in the area.

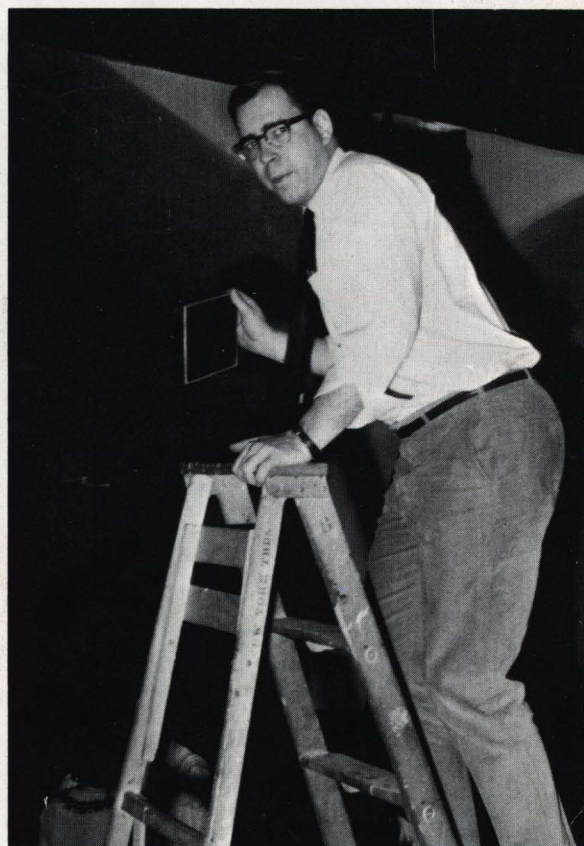

## The Language Arts Dept. Uses New Methods

LANGUAGE-ARTS STAFF: (L to R) Mr. John Miesner, Mr. Bruno Brauner, Mr. Richard Bath, Mr. Bruce Zebroski.

Students of Mattituck High are finding in language-arts a stimulating experience through the use of panel and round table discussions. Modern teaching tools have also changed the face of the classroom. The department uses its tape recorder for speech improvement and word study and its record player for the study of poetry, the drama and foreign language.

This year, as in the past, the Language Arts Department served as the activity core of the high school. Mr. Bruno Brauner produced an exciting Senior-Junior Play and Mr. John Meisner directed the Annual Variety Show and a production of the Greek drama, "Antigone."

Mr. Fisher of Industrial Arts is the main-stay of any production.

# Commerce Builds Basic Skills And Business Art

Miss Callison and Mr. Pavlak ponder the intricacies of a new computer.

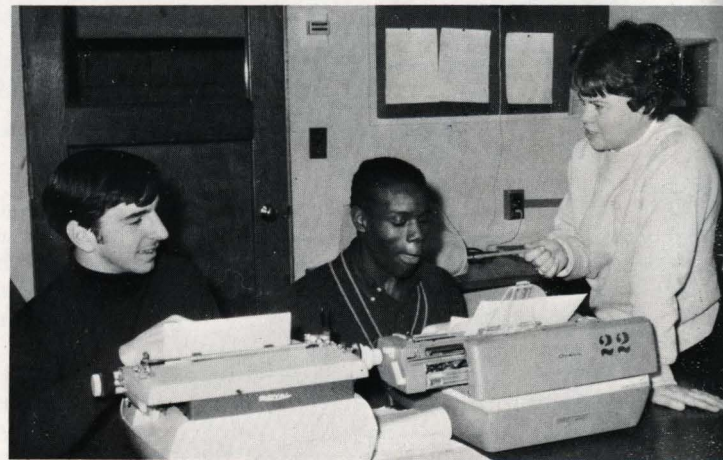

VOCATIONAL TRAINING for the business field is offered in the Commercial Department curriculum. Commercial courses supply not only unlimited opportunity for students planning to pursue a career in business, but also offer specialized subjects, such as personal typing and shorthand which aid in improving study habits and skills.

Frances and Nancy use an audio tape to develop telephone answering skills.

Marie Conklin and Nancy Bird are mimeographing the school paper, *The Mattitalk*.

Jody and Larry do some extra typing to build up speed. No strike-over boys!

Scientific study is not introductory subject matter to an incoming seventh grader because he has already been exposed to many of science's concepts in the elementary grades. Realizing, therefore, that science is, by many indications, the bulwark of his times, the student expands and heightens his knowledge as he travels through the Mattituck High science department. He is constantly exposed to high standards and forward-looking objectives, and the thoroughness involved in a geometry, biology, trigonometry, chemistry or physics course gives him more than ample opportunity to reap many rich benefits. If excellent achievement results in one of these areas, a place in an honors class is open to him. Quality and quantity co-exist in Mattituck's science and math program. Together, these components help to present and to portray this media from which life's elements evolve.

**THE SCIENCE AND MATH STAFF:** First Row (L to R): John Zabaronick, Roland Sherwood. Second Row: Benjamin Lupia, Arthur McCaw, Richard Brooks. (Not in Picture) Robert Grudop.

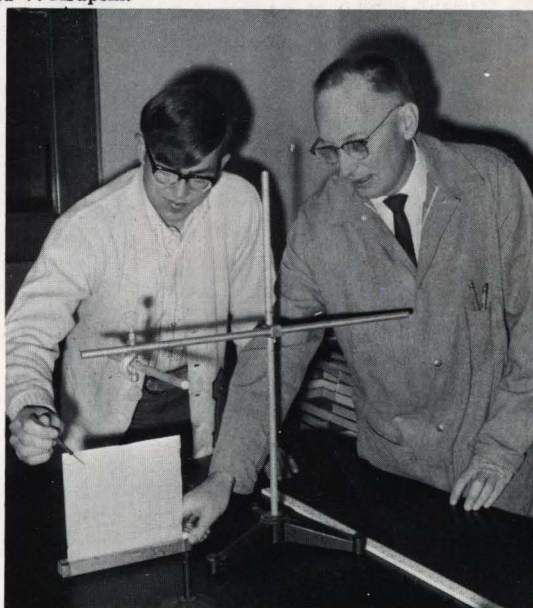

## Math And Science

Mr. Zabaronick describes the cranial cavity to P. Lindsey and V. Krupski.

Mr. Brooks performs an experiment of complicated design in his Earth Science class.

Mr. Sherwood interprets a physics formula for D. Charkow.

Mr. Grudop explains surveying techniques to his senior section.

Special

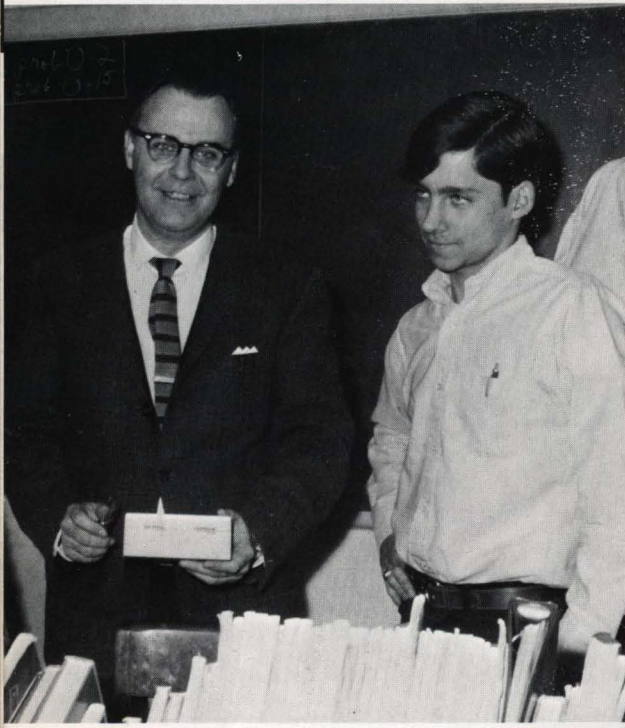

Areas

Art

Miss Koop shows the technique of cutting patterns to her homemaking class.

The special area subjects fill a very important spot in the high school curriculum. With an automated future, a shorter work week, skads of leisure time . . . art, industrial arts, and the recreational subjects should be emphasized. The teachers in our special areas division are creative, forward looking and have a keen interest in the needs of their students. They are also deeply cognizant of the importance of their subject.

Painting, ceramics, and architectural drawing are the basic interests of Mr. Griffith's classes.

Driver Education

It is not enough to teach industrial arts to the boys . . . Mr. Fisher felt that the girls could use woodworking as a leisure time hobby.

There is always a waiting list for Mr. Rudisin's classes.

Chris Zuhoski casts a spell with her mood music.

THE CHRISTMAS PROGRAM

Joseph and Mary search out the inn.

32 The manger scene ... no crib for his bed.

THE GLEE CLUB

THE JUNIOR BAND

"And sure our father came from Ireland".

Folk singer with guitar.

The Senior band struts its stuff in the Memorial Day parade.

"The Long Island Sounds" ... the boys with the mean beat.

Big bass with a little girl

"Over the hills and far away".

Seventy two ivories ... black and white.

"Dear Mr. Ellwood", Student Council sponsor, and his staff: L. Connors, S. Phillips, J. Krupski and K. Phillips.

Catching a member of the Student Council loafing was really a feat this year. Plunging into one activity after another, these students seemed to be trying to stamp out "idle hands".

Using vast ingenuity the Council published a community calendar . . . a first. Additional fund raising activities were the Virtue's Dance, the sale of zip code booklets and the school store. Most of this money was used to help pay for bus transportation to the away games.

Christmas was especially active for this group. They welcomed our Exchange Student, Alvaro, trimmed the lovely tree in the main hall and sponsored parties throughout the school. These were the ways in which our student-leaders shared the joys of the season with others.

Three days before Christmas  
 And all through the school  
 Ran the spirit of Christmas  
 Good will for the yule  
 And up on the school-top  
 By the weather vane high  
 Sat jolly St. Nicholas  
 With tears in his eye.  
 "Oh come down dear St. Nicholas"  
 The children did carol  
 "We'll fill up your tum-tum,  
 That big jelly barrel".

# ORGANIZATIONS

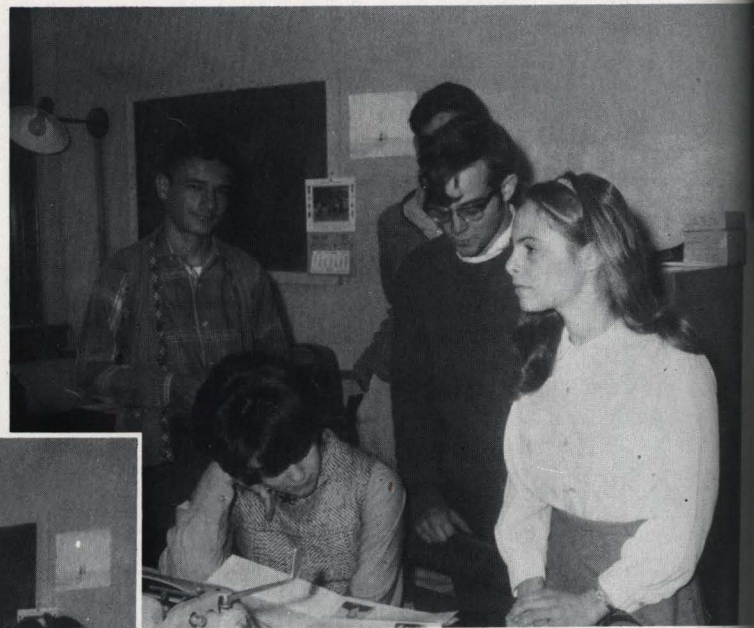

**THE MATTITALK STAFF:** First Row L to R. H. Reynolds, E. Shulha, F. Boutcher. Second Row: M. Conklin, L. Liebknecht. Third Row: Miss Callison, N. Bird and G. Bullock, Editor-in-Chief.

## *Publications:*

The Mattitalk staff has worked very hard to create an interesting and informative newspaper. Its coverage included original stories as well as information about dances and sports. The staff included an interesting assortment of conservatives, liberals and hippies. Miss Callison, our advisor, did a fine job of getting us over the rough spots and organizing the production of the paper.

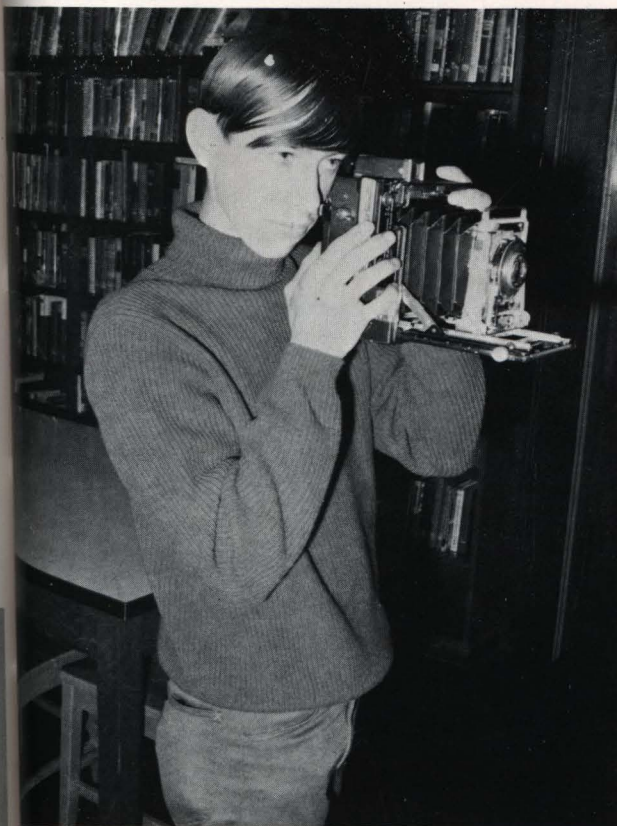

Staff meeting. Problems of a special holiday issue confront the reporters.

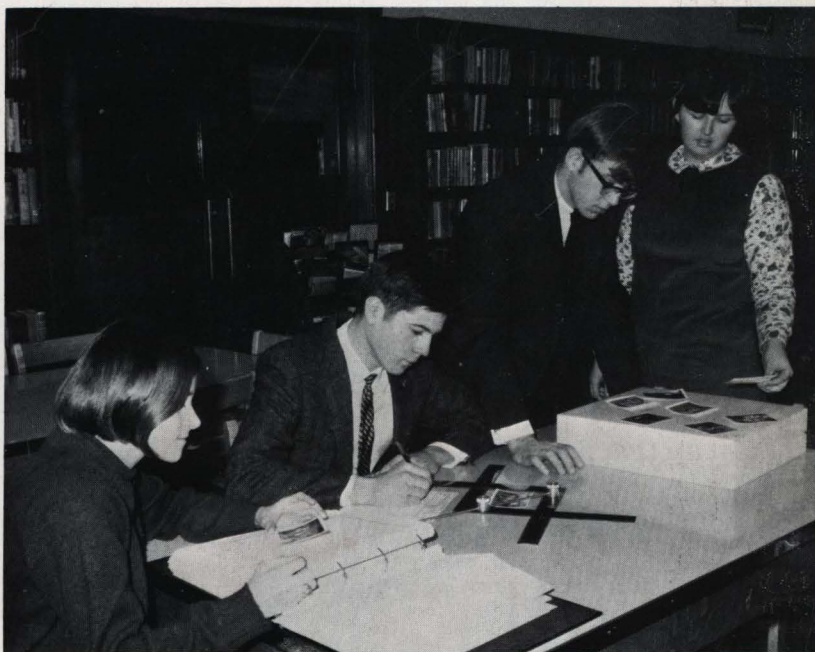

Typists, M. Conklin and N. Bird, rush to meet a deadline.

# Mattitalk And Reflector

"Really O'Reilly" our photographer, has been the back-bone of our REFLECTOR Staff.

THE ANNUAL STAFF, composed of T. Bochan, S. Kujawski, D. Charkow, and Sue O'Brien, Editor, knew moments of panic as they worked to complete pages for the first shipment.

## Heart Beat Of Alma Mater

Through the direction of Mr. Ed Clingen, students sought to improve MHS's yearbook with sharp photos, clever captions, informative copy and interesting layouts. Staff members searched for new ideas in every phase of MHS life in order to make this REFLECTOR a "different" annual. Boon to a better yearbook was the conference attended by staff members at the Huntington Town House. There was much to be learned at this conference, and students brought back valuable information to help make the 1968 REFLECTOR a storehouse of memories.

EDITOR SUSAN O'BRIEN drums her staff into shape during an early meeting of the layout committee.

MR. ED CLINGEN, sponsor of the REFLECTOR, does his best to confuse the staff as he demonstrates the method of laying out pages.

**FUTURE TEACHERS CLUB:** Assisting faculty members in all phases of school work, the Future Teachers performed their varied tasks to permit the school to run more efficiently. Class aids, under the direction of Mr. Strub, prepared lessons and aided in the teaching of the elementary pupils. The Club fosters good scholarship among its members, it is true, but its main purpose is to give them a "little taste" of teaching to wet their appetites in the pursuit of this profession.

**FRENCH CLUB:** It is interesting to note that when one is learning a foreign language he likes to try it out in a social way. This is one of the reasons for our French Club. The group works with the tape recorder, French language records, and other materials made available to them by their sponsor, Mr. Richard Rath. Plans have been made for a "Gay Paree" party and a possible visit to a French restaurant.

## Organizations

**FUTURE NURSES CLUB:** So you want to be a nurse? Oh, you are not quite sure? Your place is in the Future Nurses Club. The purpose of this organization is to acquaint its members with the opportunities available in the hundreds of nursing careers. Mrs. Phillips, our school nurse, takes her group to hospitals to observe first hand the various separate duties that nurses perform, in the operating room, in the wards, and so forth. It is a good group to be with when you are trying to make up your mind.

**THE OFFICE SERVICE SQUAD:** The Office Service Squad is made up of a very pleasant group of gals who serve as aids to the teachers and to the administrative staff. They fill in on the duties of the main office, they help in the guidance office, and extend a hand when they are needed in the library. Teachers who require duplication work, or tests typed, find a willing hand from the O.S.S.

**HOMEMAKERS CLUB:** Doughnut bakes ... flower arranging ... sewing circles ... parties. These activities and many more help the Future Homemakers to fulfill their purpose to learn to live better today in order that their lives and those of their families may be better tomorrow.

**ART SERVICE CLUB:** The Art Service Club has been active this year under the talented direction of Mr. Richard Griffith. Although Mr. Griffith must divide his time between the senior high and elementary schools, his influence can be seen throughout the school. The Club is called upon to give assistance and talent to bulletin boards, posters, plays, and all other places that need the artistic touch. In spite of the many calls for their help, they seldom let us down.

**GIRLS SHOP:** In the Girls Shop classes under the direction of Mr. Robert Fisher, the girls are taught shop techniques, the use of simple tools, minor electrical repairs, and household safety. This is the first year for this group ... we may surely say that it will not be the last.

Bruce Bullock, sculpturer, painter philosopher, poet, editor, wit, yogi, and etc. shows some of his latest oils.

**THE SENIOR SOCIETY:** First Row L to R: S. L. Bennett, E. Cichanowicz, S. Kujawski, G. Bullock, H. Reynolds. Second Row: B. Eckert, J. Krupski, C. Catrow, S. O'Brien, M. Mooney, L. Liebeknecht, T. Bochan.

### *The Hobgoblins Run Tonight!*

Our Halloween parade and party lends the zest of witchcraft to everything. Ghosts ride on brooms, witches haunt houses, and dress-up prizes are as abundant as the soda and doughnuts.

We recognize the seven-come-eleven boys and the pirate in the middle ... but who owns the profile and who is that hiding in the box?

Their names? At least we know one of them is Minnie Mouse!

The night wears on and some kids just wear out!
