# History In The Making

# Dedication Ms. McGowan

Our years at MHS are characterized by bonding: bonding with our classmates, bonding with our teachers, and of course bonding of the chemical nature. And there is no better person to teach us about bonding, and other important stuff, than Ms. McGowan.

When we entered Ms. McGowan's classroom, we expected to be bored to death by chemistry. However, McGowan's love for chemistry rubbed off on us, and we were soon memorizing the periodic table and turning all 117 elements into superheroes. She introduced us to her fun little things like the lone pear, gnomes, the ester bunny and, of course, the mole: on October 23, we all sewed felt together while eating mole-asses cookies to celebrate both Avogadros number and the creepy blind animal. We witnessed the exploding magnesium, and all trooped out to the fields with her when she set off the fire alarm in her new classroom. Later, we saw her pyromania in action, as we watched her blow stuff up, and burn her eyebrows off in the process.

Besides teaching us chemistry, McGowan was always available for extra help, athletic training when we hurt ourselves during games, candy when we had low blood sugar, and a good laugh and pointless conversation in her office - that is when she wasn't off playing ball hockey in a foreign country.

Ms. McGowan has been our mentor and our role model, which is why we dedicate our yearbook to her, with sincere thanks and gratitude. Our high school experience would not have been the same without her.

Mr. Huey has been making a difference at MHS for over 30 years.

He was inducted into the National Soccer Hall of Fame and has been named as Suffolk County Athletic Director of the year. What truly stands out about Mr. Huey are the impacts he has made on individuals. While never missing an MHS event, Mr. Huey is an incredibly hard worker and will be truly missed. He has said that even after retirement he will come to every game and we're glad he will because it is an honor having him supporting our teams.

**Here are a few words from his colleagues...**

**Mr. Huey has done so much for the school, community and all athletic programs on the island. He will be dearly missed.**

**-Mr. Demchuk**

**Hardworking, dedicated, respectful, classy is how you would describe Mike Huey.**

**Working with Mike has been an absolute pleasure. What I have learned from him as a coach and teacher can never be replaced.**

**Good luck Mike.**

**-Mr. Barbante**

**After many years**

**of dedication you deserve retirement. PLAY HARD; RIDE SAFE. I can't think of a better person to work for and to work with. Your professionalism, your optimism and honesty never goes unnoticed. See you at the games.**

**-Mrs. Berry**

**Mike never treated me like I was just the "security guy." I have the utmost respect for him as a colleague and a friend.**

**-Mr. Spath**

**I have had the pleasure of having Mr. Huey as a teacher, coach, mentor, and colleague and I can call him a friend. Mr. Huey has meant a tremendous amount to MHS.**

**-Mr. Litchhult**

**Since it seems that Mr. Huey does the work of 3 people (P.E. Teacher, Athletic Director, Athletic Director's Secretary) I look forward to meeting the 3 people who will take his plate at MHS in the future.**

**-Mr. Decaro**

**I learned early from Mr. Huey that when it comes to sports it didn't have to be fancy or flashy it just had to be good for the kids. The more kids involved the better the experience they have and the happier Mr. Huey is. He has a passion for Mattituck and treats this place like his home.**

**-Mr. Petretti**

**The 1st thing that comes to mind is he's a real gentlemen, a class act, I like his priorities in life.**

**-Mr. Brennan**

**So many years of excellence. Nobody ever had to guess how you felt. One of the most original, down to earth, honest men I have ever met. You have been a great role model and an outstanding friend. Enjoy your second life. My Best.**

**-Mr. Massa**

**Mr. Huey sure put his heart into his work. He gave his best and put a lot of time into sports he loved and people he valued. He has their thanks and respect in return. Now he must turn his attention to something else that is important-riding the Harley! Ride safe and with our thanks.**

**-Mr. Darrow**

**Mike Huey has been a friend of mine for 35 years. During that time he has always had a superior and envied work ethic. Nothing is too small nor too large for him to do, especially**

**when it relates to helping students and families. Mike is a first-class act and has always had the highest standards for himself, his students, and his players. Mike's sense of humor is the key to his being able to handle the rough times, as well as those times that are a bit easier. I have always admired his ability to keep his inner child alive and well. His creativity, energy, and intelligence have made him a tremendous asset to the school district for all the years that I have known him. I wish him happiness and good health in his retirement.**

**-Jim Christy**

# To the Class of 2009

In 5th grade, I cried to my Mom because I had been called a "soccer bunny" at school; a generalization that my timid yet budding individualism did not like. TJ said the first years at the school weren't fun for him and Jackie Shearin told me that a classmate in junior high scolded her for speaking out in class. Kayla Mottola even felt driven away from MHS in 9th grade - before returning a year later to a very different group of people.

I don't monitor myself anymore. In fact, I've found that I feel unusually comfortable around the same people who years ago intimidated me. I hope that all of you can say the same. We have blossomed into a corky group of people: Some loud. Some quiet. Some refusing to budge and some sitting on the edge of their seats. Collectively enthusiastic and miserable, always changing. All in bloom.

We are creators, inventors - and by that I mean we survived Rube Goldberg and a small percent of us are outstanding at art. We are tireless workers and film gurus: a lot of athletes and the latest cast of WMHS. We are intelligent and genuinely sweet. We started at separate preschools and made our way to Cutchogue West where we played mommy and daddy to an incubator full of chicks, eventually fell into the newly renovated Cutchogue East with it's air conditioned computer lab. We sat in rows at 6th grade graduation listening to Vitamin C's "Graduation (Friends Forever)". I cried. I cried because I was afraid of the big bad high school, not really because of any of you, because the truth is we've never had to say goodbye to each other before now. Six years later, I will cry again. But it's not because I'm afraid of the future this time, it's because the past that we have built together, the only moments in our lives that we can be sure of, is almost at sunset.

The future is endless; some of you will make millions and some of you will make art or movies and we will all make love; some will build families and others companies. But that means nothing as we stand in the lobby on our last day and hold each other tears escaping because the friends that grace these halls and the families that yielded them are all we know of our lives, of ourselves so far.

Every senior class tries to say that they are the best. Well, we have been the best for each other. We have sat by each other's sides as we all awkwardly and painfully grew up. Through the events of the 90's and the last decade we were together, 130 strong. Survived Y2K and one year and nine months later sat stunned as two of our nations strongest symbols were stolen from us and astonished, seven years later with Mr. Buckner in tow, as the country voted a man transcendent of race into the White House. We've watched each other fight, kiss, hug, give-the-finger-to, smile at, fail, succeed and fall victim to senioritis - both liberating and debilitating in it's effects, (more liberating, really).

Moggy and Lily's infamous rendition of 'Everything I once had', possibly the worst pep rally in the past decade coupled with a homecoming ruined by fall rains, music on Monday mornings and Friday afternoons! Saturday nights at Breakwater, our familiar faces in the hallways, Jane Eyre and Meg Combs' backdrop admired by the entire class. This chapter in which we are the characters is about to close; our stories will branch off into impossibly different second chapters. Someday, when I see you again, I hope to read your up-to-date novel, unedited and rocky as Chapter 1 has been. If I am flooded, in the future, with a similar group of genuinely good and incredibly human people as I have known these past seventeen years, I will be grateful that I can continue to lead a life surrounded by truth and depth. I will think of all of you.

This is it, class of 09 - this has been Mattituck. This has been our mistakes and our redemptions. High school at MHS has been, even, the occasional moment of solidity after years of wavering in a lack of confidence. Finally, the emergence of truly individual people. You are your own creation - or if you're more like me, you are still creating. This has been for many of us, experiencing a first love or maybe a perpetual dislike. It's been ridiculous and worth it - this is for the "I'll always remember..." column. Class of 2009, its time to say goodbye for the first time. -Megan Ross

Allie-

Now on to the big world! We can't believe how fast the years have gone by. it was all fun- being part of the "Stoop Kids", Sunday night dinners at Babei and Dziedzie's, hanging out on Fire Island with the Ball Family, riding shot gun with Corey, being Allie #1 at times, and Allie #2 other times, Baking late night brownies with Rosemary, trips to NYC, following Push Play, and working at Bayview with Hanna, Mande, and Allie, and winning the Suffolk County Championship for Volleyball. No More SAT's!

Love,

Mom, Dad, and Jessi

*Enjoy the ride. Cherish the journey.
